EXPERIENCE

Lead Front-End Developer 2019~present

Studiographene (studiographene.com)

Joined in 2019, I was the first and only person of the portuguese team.

Because of this I helped establish and grow the team, by interviewing new candidates and acting as a mentor and a manager. As of now we're 20 people and I am responsible for managing the team.

I'm currently the lead front-end developer on the projects I work on.

I am responsible for the FE tools, FE architecture and code-reviews.

On most projects I work with a team and use ReactJS, on other smaller projects I work by myself and I go with Wordpress, Shopify or Webflow.

Tech stack: ReactJS, React-Query, Typescript, SCSS, NextJS, Automated Tests (Cypress), JWT auth, Redux, MaterialUI, Wordpress, Shopify.

Junior Front-End Developer & Designer 2019~2019

Bright (bright.pt)

Responsible for the front-end development of apps and websites.

Working with HTML, SCSS, JQuery, Drupal, Wordpress, Shopify and Git.

IT Shop salesman 2018~2019

Staples - Alfragide

In charge of restocking and selling products, helping clients and repairing computers.

SOFT SKILLS

Creativity

Both musical composition and design offered me a "thinking outside the box" mentality, constantly searching for new and better solutions.

Organizational skills

I am responsible for managing the Lisbon team of studiographene, as well as organizing and managing my freelance projects.

Self-taught

Always interested in learning new tools and acquiring new skills, I have great passion for challenging myself.

Attention to detail

Given my artistic background, I have a great eye for design and attention to detail, making sure I perfect the definition of done.
